

# Financial Supplement Q2 2023

August 1, 2023

© 2023 Fannie Mae

- Some of the terms and other information in this presentation are defined and discussed more fully in Fannie Mae's Form 10-Q for the quarter ended June 30, 2023 ("Q2 2023 Form 10-Q") and Form 10-K for the year ended December 31, 2022 ("2022 Form 10-K"). This presentation should be reviewed together with the Q2 2023 Form 10-Q and the 2022 Form 10-K, which are available at www.fanniemae.com in the "About Us—Investor Relations—SEC Filings" section. Information on or available through the company's website is not part of this supplement.
- Some of the information in this presentation is based upon information from third-party sources such as sellers and servicers of mortgage loans. Although Fannie Mae generally considers this information reliable, Fannie Mae does not independently verify all reported information.
- Due to rounding, amounts reported in this presentation may not sum to totals indicated (i.e., 100%), or amounts shown as 100% may not reflect the entire population.
- Unless otherwise indicated, data is as of June 30, 2023 or for the first half of 2023. Data for prior years is as of December 31 or for the full year indicated.
- Note references are to endnotes, appearing on pages 22 to 24.
- Terms used in presentation

**CAS:** Connecticut Avenue Securities<sup>®</sup>

CIRT™: Credit Insurance Risk Transfer™

CRT: Credit risk transfer

DSCR: Weighted-average debt service coverage ratio

**DTI ratio:** Debt-to-income ("DTI") ratio refers to the ratio of a borrower's outstanding debt obligations (including both mortgage debt and certain other long-term and significant short-term debts) to that borrower's reported or calculated monthly income, to the extent the income is used to qualify for the mortgage

DUS®: Fannie Mae's Delegated Underwriting and Servicing program

HARP<sup>®</sup>: Home Affordable Refinance Program<sup>®</sup>, registered trademarks of the Federal Housing Finance Agency, which allowed eligible Fannie Mae borrowers with high LTV ratio loans to refinance into more sustainable loans

LTV ratio: Loan-to-value ratio

**MSA:** Metropolitan statistical area

MTMLTV ratio: Mark-to-market loan-to-value ratio, which refers to the current unpaid principal balance of a loan at period end, divided by the estimated current home price at period end

**OLTV ratio:** Origination loan-to-value ratio, which refers to the unpaid principal balance of a loan at the time of origination of the loan, divided by the home price or property value at origination of the loan

Refi Plus ™: Refi Plus initiative, which offered refinancing flexibility to eligible Fannie Mae borrowers

REO: Real estate owned by Fannie Mae because it has foreclosed on the property or obtained the property through a deed-in-lieu of foreclosure

**TCCA fees:** Refers to revenues generated by the 10 basis point guaranty fee increase the company implemented on single-family residential mortgages pursuant to the Temporary Payroll Tax Cut Continuation Act of 2011 ("TCCA") and as extended by the Infrastructure Investment and Jobs Act, the incremental revenue from which is remitted to Treasury and not retained by the company

**UPB:** Unpaid principal balance

Net worth ratio <sup>(2)</sup>	1.6 %	1.5 %		1.6 %	1.3 %							

### Q2 2023 Key Highlights

#### \$5.0 billion Net Income in Q2 2023, with Net Worth Reaching \$69.0 billion as of June 30, 2023

*Net income* increased \$1.2 billion in the second quarter of 2023, compared with the first quarter of 2023, primarily driven by a \$1.4 billion shift from provision for credit losses to benefit for credit losses.

#### Net interest income

Net interest income increased \$249 million in the second quarter of 2023, primarily driven by an increase in income from the company's other investments portfolio and an increase in amortization income. Higher income from the other investments portfolio was due to an increase in short-term yields. Amortization income increased due to increases in prepayment volumes in the second quarter of 2023.

#### Benefit (provision) for credit losses

The benefit for credit losses was \$1.3 billion in the second quarter of 2023, compared with a provision for credit losses of \$132 million in the first quarter of 2023. The benefit for credit losses in the second quarter of 2023 was driven by a single-family credit benefit, partially offset by a modest multifamily provision.

- Single-family credit benefit primarily driven by improvements in actual and forecasted home prices, partially offset by provision on newly acquired loans.
- The multifamily provision primarily due to decreases in estimated multifamily property values.

## **Multifamily Credit Loss and Serious Delinquency Rates**

Cumulative Total Credit Loss Rate, Net by Acquisition Year Through Q2 2023<sup>(39)</sup>

Serious Delinquency Rate<sup>(37)</sup>

- (1) Other expenses, net are comprised of debt extinguishment gains and losses, foreclosed property income (expense), gains and losses from partnership investments, housing trust fund expenses, loan subservicing costs, and servicer fees paid in connection with certain loss mitigation activities.
- (2) Calculated based upon net worth divided by total assets outstanding at the end of the period.
- (3) Net amortization income refers to the amortization of premiums and discounts on mortgage loans and debt of consolidated trusts. These cost basis adjustments represent the difference between the initial fair value and the carrying value of these instruments as well as upfront fees Fannie Mae receives at the time of loan acquisition. This excludes the amortization of cost basis adjustments resulting from hedge accounting.
- (4) Single-family conventional loan population consists of: (a) single-family conventional mortgage loans of Fannie Mae and (b) single-family conventional mortgage loans underlying Fannie Mae MBS other than loans underlying Freddie Mac securities that Fannie Mae has resecuritized. It excludes non-Fannie Mae single-family mortgage-related securities held in the retained mortgage portfolio for which Fannie Mae does not provide a guaranty. Conventional refers to mortgage loans and mortgage-related securities that are not guaranteed or insured, in whole or in part, by the U.S. government or one of its agencies.
- (5) The multifamily guaranty book of business consists of: (a) multifamily mortgage loans of Fannie Mae; (b) multifamily mortgage loans underlying Fannie Mae MBS; and (c) other credit enhancements that the company provided on multifamily mortgage assets. It excludes non-Fannie Mae multifamily mortgage-related securities held in the retained mortgage portfolio for which Fannie Mae does not provide a guaranty.
- (6) The average estimated mark-to-market LTV ratio is based on the unpaid principal balance of the loan divided by the estimated current value of the property at period end, which the company calculates using an internal valuation model that estimates periodic changes in home value. Excludes loans for which this information is not readily available.
- (7) FICO credit score is as of loan origination, as reported by the seller of the mortgage loan.
- (8) Single-family SDQ rate refers to single-family loans that are 90 days or more past due or in the foreclosure process, expressed as a percentage of the company's single-family conventional guaranty book of business, based on loan count. Single-family SDQ rate for loans in a particular category refers to SDQ loans in the applicable category, divided by the number of loans in the single-family conventional guaranty book of business in that category.
- (9) Base guaranty fee income, net of TCCA, is interest income from the guaranty book of business excluding the impact of a 10 basis point guaranty fee increase implemented in 2012 pursuant to the Temporary Payroll Tax Cut Continuation Act of 2011 and as extended by the Infrastructure Investment and Jobs Act, the incremental revenue from which is remitted to Treasury and not retained by the company.
- (10) "Net interest income from portfolios" consists of: interest income from assets held in the company's retained mortgage portfolio and other investments portfolio; interest income from other assets used to support lender liquidity; and interest expense on the company's outstanding corporate debt and Connecticut Avenue Securities<sup>®</sup> debt. For purposes of this Financial Supplement chart, income (expense) from hedge accounting is included in the "net interest income from portfolios" category; however, the company does not consider income (expense) from hedge accounting to be a component of net interest income from portfolios. The company had \$534 million in hedge accounting expense for the six months ended June 30, 2023.
- (11) Reflects the company's aggregate indebtedness at the end of each period presented measured in unpaid principal balance and excludes effects of cost basis adjustments and debt of consolidated trusts.
- (12) Cash equivalents are composed of overnight repurchase agreements and U.S. Treasuries, if any, that have a maturity at the date of acquisition of three months or less.
- (13) Refers to the U.S. weekly average fixed-rate mortgage rate according to Freddie Mac's Primary Mortgage Market Survey<sup>®</sup>. These rates are reported using the latest available data for a given period.
- (14) U.S. Gross Domestic Product ("GDP") annual growth (decline) rates for periods prior to 2023 are based on the annual "percentage change from fourth quarter to fourth quarter one year ago" calculated by the Bureau of Economic Analysis and are subject to revision. GDP rates for periods in 2023 are the annualized GDP rate based on the Second Quarter 2023 (Advance Estimate) published by the Bureau of Economic Analysis on July 27, 2023.

- (15) Home price estimates are based on purchase transactions in Fannie-Freddie acquisition and public deed data available through the end of June 2023. Including subsequent data may lead to materially different results. Home price growth rate is not seasonally adjusted. UPB estimates are based on data available through the end of June 2023, and the top 10 states are reported by UPB in descending order. One-year home price growth rate is for the 12-month period ending June 30, 2023.
- (16) Represents, on an annualized basis, the sum of the base guaranty fees charged during the period for the company's single-family conventional guaranty arrangements plus the recognition of any upfront cash payments relating to these guaranty arrangements based on an estimated average life at the time of acquisition. In Q4 2022, the company enhanced the method it uses to estimate average loan life at acquisition. Charged fees reported for prior periods have been updated in this Financial Supplement to reflect this updated methodology. Excludes the impact of a 10 basis point guaranty fee increase implemented pursuant to the TCCA, the incremental revenue from which is remitted to Treasury and not retained by the company.
- (17) Excludes loans for which this information is not readily available. From time to time, the company revises its guidelines for determining a borrower's DTI ratio. The amount of income reported by a borrower and used to qualify for a mortgage may not represent the borrower's total income; therefore, the DTI ratios reported may be higher than borrowers' actual DTI ratios.
- (18) Refers to HomeReady<sup>®</sup> mortgage loans, a low down payment mortgage product offered by the company that is designed for creditworthy low-income borrowers. HomeReady allows up to 97% loan-to-value ratio financing for home purchases. The company offers additional low down payment mortgage products that are not HomeReady loans; therefore, this category is not representative of all high LTV ratio single-family loans acquired or in the single-family conventional guaranty book of business for the periods shown. See the "OLTV Ratio > 95%" category for information on the single-family loans acquired or in the single-family conventional guaranty book of business with origination LTV ratios greater than 95%.
- (19) "Refi Plus" refers to loans acquired under Fannie Mae's Refi Plus initiative, which offered refinancing flexibility to eligible Fannie Mae borrowers who were current on their loans and who applied prior to the initiative's December 31, 2018 sunset date. Refi Plus had no limits on maximum LTV ratio and provided mortgage insurance flexibilities for loans with LTV ratios greater than 80%.
- (20) Calculated based on the aggregate unpaid principal balance of single-family loans for each category divided by the aggregate unpaid principal balance of loans in the single-family conventional guaranty book of business. Loans with multiple product features are included in all applicable categories.
- (21) Consists of loans that are in an active forbearance as of June 30, 2023.
- (22) Percentage of loans in the single-family conventional guaranty book of business, measured by unpaid principal balance, included in an agreement used to reduce credit risk by requiring collateral, letters of credit, mortgage insurance, corporate guarantees, inclusion in a credit risk transfer transaction reference pool, or other agreement that provides for Fannie Mae's compensation to some degree in the event of a financial loss relating to the loan.
- (23) Intentionally left blank.
- (24) Includes mortgage pool insurance transactions covering loans with an unpaid principal balance of approximately \$1.2 billion outstanding as of June 30, 2023.
- (25) Refers to loans included in an agreement used to reduce credit risk by requiring primary mortgage insurance, collateral, letters of credit, corporate guarantees, or other agreements to provide an entity with some assurance that it will be compensated to some degree in the event of a financial loss. Excludes loans covered by credit risk transfer transactions unless such loans are also covered by primary mortgage insurance.
- (26) Outstanding unpaid principal balance represents the underlying loan balance, which is different from the reference pool balance for CAS and some lender risk-sharing transactions.
- (27) Based on the unpaid principal balance of the single-family conventional guaranty book of business as of period end.
- (28) Measured from the borrowers' last paid installment on their mortgages to when the related properties were added to the company's REO inventory for foreclosures completed during the six months ended June 30, 2023. Home Equity Conversion Mortgages insured by the Department of Housing and Urban Development are excluded from this calculation.

- (29) Includes repayment plans and foreclosure alternatives. Repayment plans reflect only those plans associated with loans that were 60 days or more delinquent. Beginning with the year ended December 31, 2020, completed forbearance arrangements are excluded.
- (30) There were approximately 16,300 loans in a trial modification period that was not complete as of June 30, 2023.
- (31) Represents the percentage of loans with lender risk-sharing agreements in place, measured by unpaid principal balance.
- (32) Under the Delegated Underwriting and Servicing ("DUS") program, Fannie Mae acquires individual, newly originated mortgages from specially approved DUS lenders using DUS underwriting standards and/or DUS loan documents. Because DUS lenders generally share the risk of loss with Fannie Mae, they are able to originate, underwrite, close and service most loans without a pre-review by the company.
- (33) Includes any loan that was underwritten with an interest-only term less than the term of the loan, regardless of whether it is currently in its interest-only period.
- (34) See https://multifamily.fanniemae.com/financing-options for definitions. Loans with multiple product features are included in all applicable categories.
- (35) Small balance loans refers to multifamily loans with an original unpaid balance of up to \$6 million nationwide.
- (36) Our estimates of current DSCRs are based on the latest available income information covering a 12 month period, from quarterly and annual statements for these properties including the related debt service. When an annual statement is the latest statement available, it is used. When operating statement information is not available, the underwritten DSCR is used. Co-op loans are excluded from this metric.
- (37) Multifamily serious delinquency rate refers to multifamily loans that are 60 days or more past due, expressed as a percentage of the company's multifamily guaranty book of business, based on unpaid principal balance. Multifamily serious delinquency rate for loans in a particular category (such as acquisition year, asset class or targeted affordable segment), refers to seriously delinquent loans in the applicable category, divided by the unpaid principal balance of the loans in the multifamily guaranty book of business in that category.
- (38) The Multifamily Affordable Business Channel focuses on financing properties that are under an agreement that provides long-term affordability, such as properties with rent subsidies or income restrictions.
- (39) Cumulative net credit loss rate is the cumulative net credit losses (gains) through June 30, 2023 on the multifamily loans that were acquired in the applicable period, as a percentage of the total acquired unpaid principal balance of multifamily loans that were acquired in the applicable period. Net credit losses include expected benefit of freestanding loss-sharing arrangements, primarily multifamily DUS lender risk-sharing transactions. Credit loss rate for 2014 acquisitions was primarily driven by the write-off of a seniors housing portfolio in Q1 2023.
- (40) Defaults include loan foreclosures, short sales, sales to third parties at the time of foreclosure and deeds-in-lieu of foreclosure. Cumulative Default Rate is the total number of single-family conventional loans in the guaranty book of business originated in the identified year that have defaulted, divided by the total number of single-family conventional loans in the guaranty book of business originated in the identified year. Data as of June 30, 2023 is not necessarily indicative of the ultimate performance of the loans and performance may change, perhaps materially, in future periods.
- (41) Criticized loans represent loans classified as "Special Mention," "Substandard" or "Doubtful." Loans classified as "Special Mention" refers to loans that are otherwise performing but have potential weaknesses that, if left uncorrected, may result in deterioration in the borrower's ability to repay in full. Loans classified as "Substandard" have a well-defined weakness that jeopardizes the timely full repayment. "Doubtful" refers to a loan with a weakness that makes collection or liquidation in full highly questionable and improbable based on existing conditions and values.
